Building Safety Non Residential Stock and Train Application

Applicant Information

Name:_____Company:_____

Address:_____Phone:_____

Project Information

Permit Number (if applicable):_____Contractor Name:_____
Project Name:_____
Project Address:_____
Stock and Train Scope: _____
_____
_____

Stock and Train
For the purposes of this procedure, "stocking" is defined as the installation of store fixtures and product for future sale. Persons installing fixtures and placing goods are considered as part of the project construction staff. Other persons shall not occupy the building at this stage.

The building structure and systems must be substantially complete, and all overhead work must be complete and approved. All fire and life safety systems and devices are in place and complete. All inspection disciplines must either sign off final approvals or issue a written "OK to stock only" or similar language as part of the final correction notice for that discipline. Final approval is left to the City of Buckeye Chief Building Official's discretion.

I hereby request approval to Stock and Train at the project address listed above:

Applicant: _____ _____ _____
(Signature) (Print Name) (Date Signed)

This application can be submitted by email to lfrancis@buckeyeaz.gov or mwhite@buckeyeaz.gov
Applications will be reviewed and responded to within five (5) to seven (7) business days.

For City use only

Stock and Train Approval
